

# Regulatory strategy 2025–29

**Our vision:** Stronger regions, economies and partnerships through effective and efficient regulation.

## Our objectives:

### Engage

stakeholders and customers to build their understanding of the regulatory framework and our understanding of their operating environment.

### Cultivate

partnerships with other regulatory agencies and stakeholders to deliver better outcomes.

### Be decisive

take initiative, make the tough calls and be accountable for our outcomes.

### Moving forward

encourage curiosity and continually challenge ourselves. Explore and pursue ideas to reduce unnecessary regulatory burden.

### Our people

foster an inclusive environment where we prioritise our people's wellbeing, safety and development.

## Our commitment:

- >> Our resources are focused on the areas of highest risk. These focus areas are published in our annual Strategic Regulatory Focus Areas.
- >> Our data is available to industries, stakeholders and customers to help them make informed decisions.
- >> We continually evaluate and assess our performance to ensure our approach is effective and aligns with our strategic objectives.
- >> We use data to inform updates to our regulatory improvement activities, and we report regularly on our performance.
- >> In everything we do and decide, we respect, protect and promote human rights.

## Our regulatory principles:

| proportionate | consistent | timely |  
| in the public interest | proactive |  
| risk based | outcome focused |  
| transparent |

## >> Georesources

Queensland's mineral and energy resources are optimised and managed for the benefit of all Queenslanders.

## >> Land

Maintain confidence in the state's property boundary and valuation system.

State land is managed for the benefit of all Queenslanders.

Regulate native vegetation clearing to protect Queensland's biodiversity and reduce emissions, while allowing for sustainable land uses.

## >> Regional Development

Provide strategic oversight of Queensland Rural and Industry Development Authority (QRIDA), ensuring funding schemes are well-governed, economically effective and deliver meaningful benefits to regional and rural communities.
